

Dear Member

This last week we've done the 'change over' at the Station, this is what we normally call our 'Spring Planting' but a little delayed this year - both weather and coronavirus.

We were again greatly helped by Manor Heath Nursery in Halifax with the plant preparation and the team took several days to do the replanting at the station - a big 'Thank you' to all who were there

A quick 'tot up' reveals that in making the changeover we used just on 1400 plants ! A couple of the images below show some of the plants arriving - there were 5 trailer loads in all

Our key objective is to make the Station a real Gateway to the Town' and , with your help, I'm sure that you will agree is it exactly that

Kind regards

David
